

VT-120

Safe for DVR

Specific for CCTV

For DVR of 1,5/2U rack

Mechanical lock

With ventilation and cable passage

Quality and resistance

Safe for protection of video recorders.

One of the weaknesses of the CCTV installations is the risk of physical access to the video recorder which can be manipulated or stolen by intruders or unauthorized personnel.

The safe VR-120 is specially designed to protect video recorders whose size does not exceed 1,5/2U rack. It consists of a steel box with 2 mm thick door and steel frame of 4 mm, equipped with vents located throughout the box, rear windows for wiring and various drills to anchor the safe. It is finished in epoxy-polyester polymerized paint at 180 °C very resistant.

The door lock is operated by a secure key lock of 6 gorges and double pin. Optionally you can install inside the removable tray VR-020 for easy access and maintenance.

Regarding the legal regulations for the protection of DVRs, this box meets all requirements.

Especificaciones

Lock type	Mechanics actuated by key
External dimensions	225 (He) x 615 (Wi) x 550 (De) mm
Interior dimensions	221 (He) x 611 (Wi) x 526 (De) mm
Dimensions of pass	150 (He) x 515 (Wi) x 510 (De) mm
Weight	26 kg
